

New Connections

In excess of 20 years of deregulation in utility markets means that clients can now get much better value in new connections procurement for development and other schemes. Quality tender management is key to driving value.

We draw on decades of experience and a deep understanding of the range of options available for developers for all the different types of utilities. We monitor how Independent Network Operators, multi lay contractors and connectors perform as well as having an unrivalled understanding of where in the country and upon which type and size of schemes they add real value. Our comprehensive employer's agent procurement service sets them all against the traditional networks and each other resulting in cost and program benefits for our clients.

A Fixed Fee approach that includes regular reporting to the client's requirements across the design, technical and site and contracting management functions.

Suitable for:

Solicitors, Clients and Project Managers.
Developers, Local Authorities Consultants, Architects, Design & Build Contractors, Contractors, Highways schemes promoters and Surveyors.

What our clients are saying (originals available):

- "Its clear Apogee are taking searching to a new level"
- "It was great to get all responses back in 10 days"
